

MiCollab End-User Quick Reference Guide

About MiCollab

MiCollab unifies Mitel applications into an easy-to-use, cost effective communications solution for small, medium, and enterprise sized businesses.

Users have single point of access to all their Mitel applications through the MiCollab end-user portal, a web-based interface.

Welcome E-mail

After your MiCollab Client account is created, you will receive a welcome e-mail message that provides the following information:

Managing Application Settings

The following table lists the applications and functionality provided by the web portals.

Web portal	Supported applications	Usage
MiCollab End-User Portal	Settings	Set your personal settings, such as user information, language preference, and phone numbers.
	NuPoint Unified Messaging	<ul style="list-style-type: none">• Access and manage voice, fax, and recorded messages from your e-mail or web browser.• Record mailbox greetings.• Create and manage personal distribution lists.
	MiCollab Audio, Web and Video Conferencing (AWV) (formerly known as Mitel Collaboration Advanced)	Schedule and manage conference sessions through MiCollab Audio, Web and Video Conferencing web portal. You can upload documents and present them to the callers during a conference.
MiCollab Web Client	Home	View your recent activity (chats, calls, and MiTeam Streams).
	Contacts	Provides your list of corporate contacts, favorites, and contact groups. Select a contact to access additional options. You can add, select, delete groups, and add or remove group members.
	Chat	Provides your recent chats. Allows you to chat with the contacts.
	MiTeam	Allows teams to collaborate in real-time no matter where they are using mobile device technology. It brings remote workers into the conversation.
	Call History	View your missed, received, and placed calls.
	Voice mail	List and download your current voice mail and FAX messages.
	Settings	Allows you to manage settings such as voicemail settings, call settings, dynamic status, calendar integration, and schedules.
	Dynamic Status	The Dynamic Status view indicates your current Dynamic Status and Presence settings. From the Dynamic Status view, you can change your avatar, Manage Status, and configure Dynamic Status elements.

See *End-User Online Help* for detailed information on MiCollab End-User portal.
