ABOUT YOUR PHONE

The 5207 IP Phone has eight fixed-function keys (**SUPERKEY, HOLD, TRANS/CONF, CANCEL, REDIAL, SPEAKER, MESSAGE, MICROPHONE**, ⏶ and ⏷) and 14 personal keys with built-in status indicators. The personal key on the bottom right is always your Prime Line; the remaining personal keys can be programmed as:

- Feature keys (for example, **Swap**). You can program feature keys from your phone. Your administrator can also program feature keys.
- Speed Call keys. You can program speed call keys from your phone.
- Line Appearances. Only the administrator can program line appearances.

Your telephone also features display-assisted selection of features, on-hook dialing, and a large Message Indicator.

Note: When using the **SUPERKEY**, press **Cancel** to back up one menu level.

TIPS FOR YOUR COMFORT AND SAFETY

Don't cradle the handset!

Prolonged use of the handset can lead to neck, shoulder, or back discomfort, especially if you cradle the handset between your ear and shoulder.

Protect your hearing

Your phone has a control for adjusting the volume of the handset receiver. Because continuous exposure to loud sounds can contribute to hearing loss, keep the volume at a moderate level.

Using a headset

5207 IP Phones DO NOT support the direct connection of a headset. Use of a headset with this phone requires a Plantronics M12 Vista Universal Amplifier. The amplifier plugs into the handset port on the underside of the phone. Follow all instructions in the Plantronics M12 Vista documentation for proper installation and use.

Plantronics models P51, P81, P101N, and Supra NC headsets are the ONLY headsets approved for use with the 5207 IP Phone through the Plantronics M12 Vista. For optimum audio quality, set the M12 volume control to a low setting (1 to 3).

CAUTION: Using a headset without the required amplifier may cause hearing damage.

Adjusting the viewing angle

To tilt your telephone for better viewing:

1. Press the release tabs on the sides of the stand.
2. Hinge the two front hooks and snap the two back hooks of the stand into either the upper or lower notches on the back of the phone.

Call Forward - Forced

To force an incoming call to be forwarded:

- Press the **Forward Call** feature key.

To immediately transfer to another extension's No Answer forwarding destination when making a call:

- Press the **Forward Call** feature key when it lights.
  Note: For information on programming a feature key, see "Feature Keys" elsewhere in this guide.

Call Forward - Toggle

This feature is useful if you want call forwarding in effect for Busy and No Answer conditions most of the time, but need to override it with Call Forward Always occasionally—for example, when you're using a second phone. Instead of changing the call forward programming on your main phone to turn Call Forward Always on and off, you can program a key to do it.

You can also program keys to turn Call Forward Busy, No Answer or Busy/No Answer on and off.

To toggle call forward:

- Press the programmed feature key: **Forward Always**, **Forward Busy**, **Forward No Ans**, or **Forward Busy/NA**.
  Note: For information on programming a feature key, see "Feature Keys" elsewhere in this guide.

Note: You may also program a **Forward All** feature key to enable and disable all call forward types that have a destination programmed.

To page a DP/BLF extension:
- Press the **DP/BLF** key.

You can page when the DP/BLF extension is idle (key dark) or busy (key steadily lit).

DSS/BLF/Direct Page/Call Pickup

Your phone may have keys that show the status (idle, busy, ringing, or call on hold) of another extension. Depending on the programming of the key, pressing it will either call the extension if it is idle, or retrieve a call ringing or on hold at the extension, or page the extension.

To pick up a call ringing at the DSS/BLF extension:
- Press the slowly flashing **DSS/BLF** key.

To retrieve a call on hold at the DSS/BLF extension:
- Press the rapidly flashing **DSS/BLF** key.

To page a DSS/BLF extension:
- Press the dark or steadily lit **DSS/BLF** key.

Record a Call

This feature uses your voice mail system to record your telephone conversations.

Note: You may be required by law to inform the other party that you are recording the conversation. For specific instructions, consult your system administrator.

To start recording while on a 2-party call:

- Press the **Record Call** feature key. (See Feature Keys elsewhere in this guide for instructions on programming a **Record Call** key to your phone.)

Note: Your system may be programmed to automatically begin recording external calls when you or the other answers.

To stop and save a recording:

- Press the **Record Call** feature key.

Putting the call on hold saves the recording; taking the call off hold starts a new recording. Depending on system programming, hanging up, or pressing **TRANS/CONF** or a **DSS** key, may also save the recording.

To stop and erase a recording:

- Press the **Cancel** softkey.

To listen to a recording:

1. Lift the handset.
2. Access your voice mailbox.
3. Follow the prompts to retrieve the recording.
