

ACD Agent Quick Reference

Mitel Networks SX-2000 SUPERSET 4015

This card describes the basic features available to Agent phones with standard programming. Your phone may be programmed in a different way. Consult your system administrator if you need further information.

Supervisor Override

The supervisor can monitor your ACD calls and join in if necessary. A warning tone sounds before the override starts, and then repeats at regular intervals until the supervisor hangs up.

For More Information

For additional information on using your phone, download the user guide from the Mitel Networks Documentation (eDocs) website - <http://edocs.mitel.com/UG/index>.

Making Calls

Internal Calls

- Dial the number manually
- Or-
- Press a Speed Call key.

External Calls

- Dial the outside line access code (usually "9")
You hear dial tone.
- Dial the number manually
- Or-
- Press a Speed Call key or **REDIAL**.

After Work Timer

After ending a call, you will be allowed a certain amount of time to complete the work generated by the call before another one is presented.

You have the option of canceling the timer and accepting another call before the timer expires.

To cancel the After Work Timer:

- Press **CANCEL**.

NOTE: Making a call or answering another non-ACD call automatically cancels the timer. Be prepared to answer another ACD call when you hang up.

Make Busy

This feature makes your phone unavailable for ACD calls without logging out. Use it for coffee or lunch breaks, or if you need more time to handle paperwork between calls.

To make your phone busy:

- Press the **MAKE BUSY** key. The light flashes quickly.

Press the key again to make your phone available for ACD calls.

ACD Agent Quick Reference

Queue Status

The LED in the Queue Status key and/or ringing patterns indicate the status of your Agent Group as follows:
