## Useful Links

### My Unified Communications Quick Reference Guide

- Opens this Quick Reference Guide.

### User Portals

- Launches your application web portal(s). Enter your Login ID and Password to log in.

### Client Application Download Links

- Allows you to download client software, such as the UC Advanced client.

## Managing Your Application Settings

The following table lists the applications and functionality provided by the web portals.

Web Portal	Supported Applications	Use to . . .
My Unified Communications Portal	Settings	Set your personal settings, such as passwords and phone numbers.
	UC Mobile	Make calls using the corporate phone system (OfficeLink), twin your mobile device to your desktop phone and specify the hours of the day and days of the week during which UC Mobile will be enabled.
	NuPoint Unified Messaging Web View	Access and manage voice, fax, and recorded messages from your e-mail client or web browser, record mailbox greetings, and create and manage personal distribution lists.
	NuPoint Unified Messaging Call Director	Create an automated attendant application (known as a call flow) to handle your calls when you can't answer personally.
	Mitel Collaboration Advanced (formerly know as Audio & Web Conferencing)	Schedule and manage collaboration sessions through the Mitel MCA web interface. You can upload documents and present them to callers during a collaboration call.
UC Advanced Web Portal	Home	View your unread voice mails and missed calls. Search a list of your corporate contacts.
	Call History	View your missed, received, and placed calls.
	Messages	List and download your current voice mail and FAX messages.
	Dynamic Status	View your current status and presence settings and create and edit your Dynamic Status elements such as call routing and presence information.
	Groups	Allows you to organize your contacts in groups. In this page, you can add, select, and delete groups; add and delete group members.
	Account Options	Update your voicemail and desk phone destinations, change your password, and change your voice mail PIN.
